- Branding – Mr. Gately has been in contact with the Superintendent of Schools and they are collaborating on a plan for participation of school age children to recognize branding for Vernon/Rockville.
- Enhancing Gateway- This relies on branding and will go hand in hand once the branding has been established.
- Talcottville Mill – This is progressing slowly but they are hopeful that with funding approval, they should break ground in the Spring of 2013.
- Development of Exit 66 and 67 – This also relies on branding but issues prevail with these exits due to development and sewer issues.
- Retention and Business Development – Once there is direction from branding, they will be able to move forward. Mr. Gately has been visiting five businesses a week. He feels that the Job Fair and the business recognition will help with retention.
